TIME CLOCK COMPARISON GUIDE

GT4 - LITE

If you simply need your employees to clock in and out, this is the time clock for you.

Features:

- 4.3" Color Display
- Punch restrictions to prevent employees from clocking in/out at unauthorized times

Standard Features: Power of Ethernet (POE), Wifi

GT4

Looking to track hours across specific locations or departments? The GT4 time clock is your ideal solution.

Workgroup Transfers:

- Manual: Button press and selection
- Automatic: Clock sets employee's workgroup location

Optional Relay Module:

- Trigger bells at specific time
- Unlock doors with a punch

Standard Features: Power of Ethernet (POE), Wifi, and Battery Backup.

GT8 & GT10

Secure biometrics plus employee attestation are available in the GT8/10

Features:

- GT8: 8" color touch screen
- GT10: 10" color touch screen
- Biometric facial recognition
- Employee Attestation at every shift

Employee Review:

- Schedules
- Time Cards

Standard Features: Facial Recognition, Power of Ethernet (POE), Wifi, and Battery Backup.

TIME TERMINAL

Turn any iPad into a time clock.

Features:

- Budget-friendly alternative to traditional time clocks
- Punching with onscreen keypad or QR or Barcode
- Photo capture with each punch
- LTE/Cellular capability of iPad for remote punching.

iPads are provided and maintained by the customer

Multiclass Proximity Reader: Supports most badge types, not limited to iClass, RFID, NFC, and HID. We will always request test badges to verify and setup your clock appropriately.
